

Chart and information page references for AEG's "Stargate SG-1 Roleplaying Game"

This list is comprised of those charts and sections I find myself looking up most often, either before or during game-play (sheet 1 lists chart references; sheet 2 lists section references). Adapt it by removing things you don't tend to look up and adding those things you do. If later editions or edited printings of these books come out, or the charts are superseded by ones in later books, simply edit the relevant information.

Books included so far: Main rulebook
Season One ("Fantastic Frontiers")
Season Two ("Friends and Foes")
Living Gods (Stargate System Lords)
First Steps (Unexplored World Sourcebook)

I've probably missed some page references here or there, mixed up a couple of page numbers, or left something out. I'll try to come back and post edited versions of this file now and then, but you can always just edit your downloaded copy.

Feel free to pass around the .xls or .pdf versions of this reference document as much as you want. It would be nice if you attributed the list to us and linked back, but it's just a listing of charts with page references, so it isn't a big deal if you don't. Just don't take credit for our work, okay? Thanks.
